

Sidney High School**Mathematics Dept.****Course Pathways**

An advanced course of study is recommended for students intending to pursue a math or science related major at a 4 year college.

Advanced - available only to students who have taken Algebra prior to Freshman year

Geometry	Algebra II	PreCalculus	Calculus	(students may choose to take Trig/stats concurrently with PreCalculus or Calculus)
----------	------------	-------------	----------	--

Advanced - for students wishing to accelerate their courses and be able to take Calculus before leaving high school

Algebra	Geometry and Alg II	PreCalculus	Calculus	(students may choose to take Trig/stats concurrently with PreCalculus or Calculus)
---------	---------------------	-------------	----------	--

Regular College Prep

Algebra	Geometry	Algebra II	PreCalculus	(students may choose to take Trig/stats concurrently with PreCalculus)
---------	----------	------------	-------------	--

Algebra	Geometry	Algebra II	Trig/Stats
---------	----------	------------	------------

Algebra	Geometry	Algebra II	(It may work for a college bound student to not take a math class their senior year if they choose a rigorous science class.)
---------	----------	------------	---

Not College Prep - For students testing below grade level expectations in regular classes

Algebra	Geometry B	Intermediate Algebra	Trig/Stats
---------	------------	----------------------	------------

PreAlgebra	Algebra	Geometry B	Intermediate Algebra
------------	---------	------------	----------------------

Note: As a minimum, all students must earn 2 credits of Math to graduate from Sidney High School. One must be Algebra.
